DATE: November 5, 2009
SUBJECT: MOSIS/Core Data Updates

NEW Core Data Screens:

With the transition to the New Core Data Screens, the data was not flowing from MOSIS Certified Trials to the Core Data Screens. Any data Certified up through yesterday, November 4th, has now been successfully populated to the Core Data Screens. Data Certified today, November 5th, will be populated on the Core Data Screens by the end of today.

Core Data Screens:

Core Data Screens 18 and 25 will be working appropriately as of noon today, November 5th.

Core Data Reports:

The Core Data Reports with data generated by MOSIS will populate through a nightly process, therefore you can expect to see MOSIS Data reflected in those reports the following day after Certifying.
